Education

catalogue 2023/24

www.ministryoffurniture.com

Welcome to Ministry of Furniture

PEOPLE | EXPERTISE | PERFORMANCE

Welcome to our 2023 / 24 Education Catalogue.

In support of our environmental aims, this year we've opted to condense the catalogue, featuring just our most popular products in the printed version - reducing our paper production on this publication by a whopping 78%. We hope you understand and can support our decision. Of course, our full range of products are still available online at www.ministryoffurniture.com. We've put an easy to scan QR code on each page to help with your selection.

You can use our online chat via the website – or contact us on sales@ministryoffurniture.com. Or if like us you're old school and just want to talk to a human being – we'd love you to contact our team on 01639 812382 for a chat. We can also support you with either Teams or Zoom video chat, or a visit to discuss your project.

We know budgets are tight and times are tough – so our supply chain team have been hard at work to keep price increases to an absolute minimum and maintain as wide a selection of products as we can to help you make the right choice for your establishment. If you've got a larger project in mind, make sure you get in touch and we'll sharpen our pencil!

👏 Thank you for considering Ministry of Furniture - your business and your support is as important to us as ever, and we look forward to being at your service. 🙌

Graham Hirst,
Managing Director,
Ministry of Furniture

Professional experts in...

Interior Design experts and professionals in BIM modelling, 3D space planning, project management and remanufacturing. Creating inspirational workplace and educational environments.

Situated in our head office and showroom at Metal Box, Neath. Client visits of our new exciting base are now available, including our existing 11000sq ft remanufacturing facilities.

Ministry of Furniture is the furniture business that emerged from Remploy, and is an awardee on the NPS framework for Wales.

Catalogue product guide

Throughout our catalogue we have used an easy to understand icon guide to help you find the right product for you at a glance. We've detailed below what each one of them means and how they can be of help to you:

To view the full range on our website, scan the QR code.

Eco friendly catalogue

Due to our commitment to sustainability and social values we have reduced our printed catalogue. We have added QR Codes to each product page, should you wish to see the full range of products just scan the QR code, which will take you direct to the relevant page within our website.

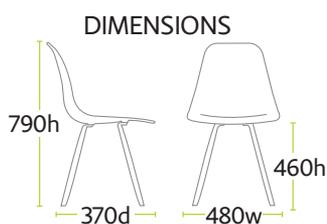

Delivery Times

We've worked hard to bring you the best range of products we can to meet all of your contract furniture requirements. Across our huge range of products, delivery leadtimes vary and we have included a guide to show you what standard leadtimes will be.

Manufactured

Where the product is manufactured entirely in the UK we have included this full colour "Made in UK" logo. 95% of our products are made in the UK. Some product components, and in some cases the entire product, may be imported as piece parts and stored in the UK before being assembled or finished for onward delivery to you. We have therefore marked some items with a grey "Assembled or Stocked in UK" icon to help you identify this.

Dimensions

It's essential you know what footprint the furniture will consume. It's also important you know simple dimensions - so that you can work out for example whether you can fit two chairs under a certain table. We've compiled this data so its in one place for you.

Stacking Icons

Most of our chairs and tables stack. We've included a handy guide as to how many we recommend you can safely stack these product. We've also included an icon that shows you at glance which chairs will benefit from use of a stacking trolley.

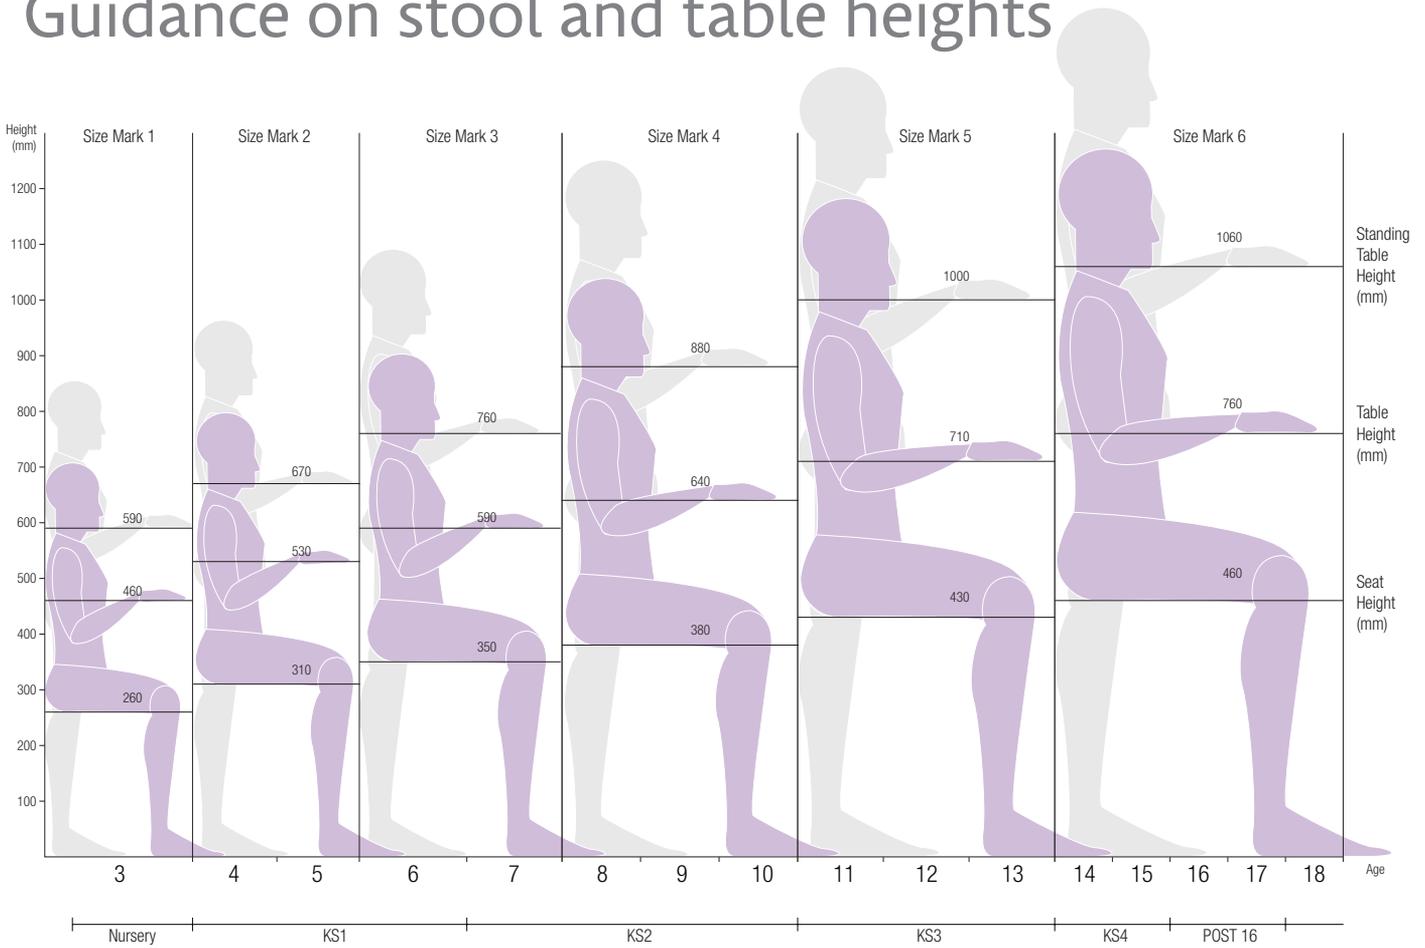

Price match promise

Buy from Ministry of Furniture with confidence! We only supply Educational and Contract Furniture that we have assessed to be entirely fit for purpose - and if you can show us identically matched products currently available at a lower price elsewhere, we will match the lower price when you place your order with Ministry of Furniture!*

*To qualify for the Price Match Promise, products must be identical to those offered by Ministry of Furniture and from the current Ministry of Furniture range including material grade, key product specifications and dimensions and colour finish. The identified lower price must be for an identical product quantity and mix of products within the entire listing or bundle. Price match will not include any periodical offers, promotions, special pricing, clearance offers, or special delivery pricing agreements. Price to be matched must include all additional costs such as delivery charges and small order / administrative surcharges, and must be subject to similar credit terms. Proof of pricing will be required at the time of ordering.

Guidance on stool and table heights

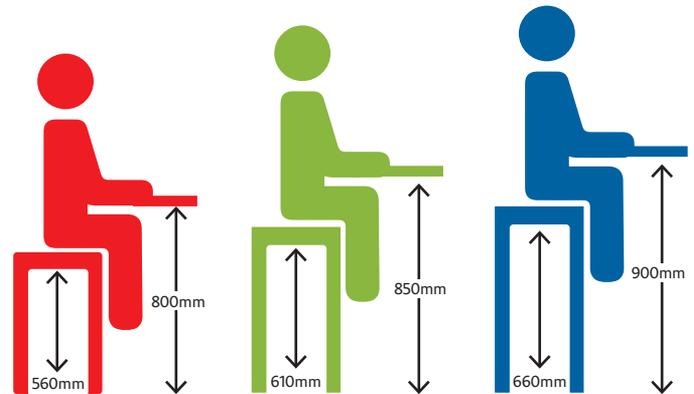

Size marks in classrooms

Chairs

Age Group	Size Mark 1	Size Mark 2	Size Mark 3	Size Mark 4	Size Mark 5	Size Mark 6
Nursery (3-4 yrs)	✓					
Pre-School (4-5 yrs)		✓				
Infant (6-7 yrs)			✓			
Junior (8-10 yrs)				✓		
Adult (11-13 yrs)					✓	✓
Adult (14-Adult)						✓

Stools and high chair heights

Size mark	1	2	3	4	5	6
Recommended age	3 - 4	4 - 5	6 - 7	8 - 10	11 - 13	11 - Adult
Popliteal height range	250 - 280mm	280 - 315mm	315 - 355mm	355 - 405mm	405 - 435mm	435 - 485mm
Standing table height	590mm	710mm	760mm	900mm	1000mm	1000mm
Table height	460mm	530mm	590mm	640mm	710mm	760mm
Chair seat height	260mm	310mm	350mm	380mm	430mm	460mm
Recommended distance between top of table and seat of a tall chair or stool	150mm	160mm	170mm	190mm	210mm	230mm

These heights are recommended heights only. If unsure, it's worth checking a sample product first.

Quality - Guaranteed.

On all Ministry of Furniture products we offer a 12 month "Fair Wear and Tear" guarantee as standard.

However 95% of our products include an extended guarantee. We call this our 'fair wear and tear guarantee'. Quite simply, if the product becomes faulty during the guarantee period through normal usage in its intended environment, we will replace it.

Seating & table standards in Education

In order to ensure that the right size tables, chairs and stools are selected for Education environments, school furniture for use in classrooms should be tested to BS EN1729 parts one and two. Whilst it's not mandatory that schools choose only BS EN1729 compliant products, a school may leave themselves exposed to challenge should a person develop (for example) back pain in later life that could be related to the school failing to provide BS EN1729 compliant furniture for pupils.

The recently updated standard is two part:

1. BS EN 1729-1: 2015 Furniture. Chairs and tables for educational institutions. Functional dimensions.
2. BS EN 1729-2: 2012 Furniture. Chairs and tables for educational institutions.

Safety requirements & test methods

Some suppliers wrongly claim compliance to BS EN1729 by claiming compliance to one part of the standard only. Some say 'manufactured to BS EN1729' (usually a sign the product has not been fully tested).

Ministry of Furniture are a FIRA member, all our recommended Educational products are BS EN179 compliant.

Table edge and frame range explained

Spray PU edge

A relatively new process, spray PU is sprayed onto an MDF top. It is 2mm thick, and a flexible process and therefore can be applied to more shapes than cast PU however, making it a favourite with manufacturers.

ABS or PVC edge

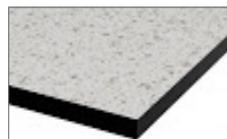

ABS edging is produced from a plastic material named Acrylonitrile Butadiene Styrene. It is a common edge finish on office desking and cabinets, and has high abrasion and marking resistant properties.

MDF edge

MDF board is laminated (or melamine faced), the edge is left exposed and is rounded off (or 'bullnosed'). An extremely cost effective option for customers.

Solid grade laminate edge

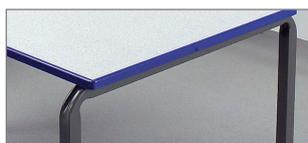

The core of the material works well as an exposed edge (which appears charcoal black) and is ideal in both wet and dry areas.

Fully welded frame

The legs are welded to the sub frame of the table constructed of square steel tube. Some users prefer the flush finish rather than the bend of a crush bent frame.

Crush Bent frame

The legs are bent from one continuous piece of steel, offering unrivalled strength. Can be bent along the long or short edge of the table, which affects the stackability.

Round leg frame

No different in construction from the fully welded frame, this style of table uses a round steel tube leg instead of square steel tube.

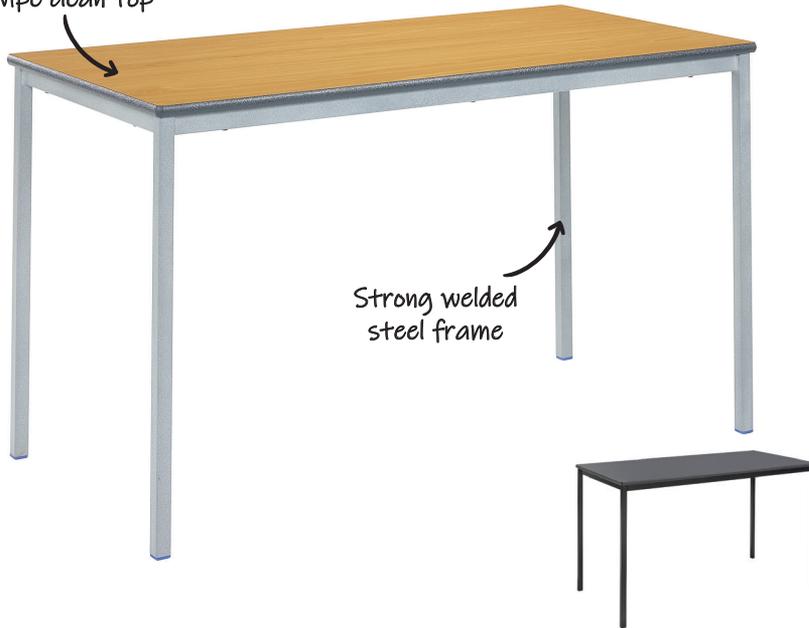

Fully welded table

25mm square frame

- Can be spirally stacked for ease of storage.
- Easy to manoeuvre and fit together to prevent gaps between surfaces.
- Supplied with Duraform Speckled Light Grey frame paint as standard.
- Tables are BS EN 1729 compliant parts 1 & 2 and are manufactured in the UK.
- Heights available - 460mm, 530mm, 590mm, 640mm, 710mm, 760mm.

Seating size marks explained

Here is a quick guide to chair sizing (size marks). This guide provides you with information for all age groups from pre-school through to adulthood.

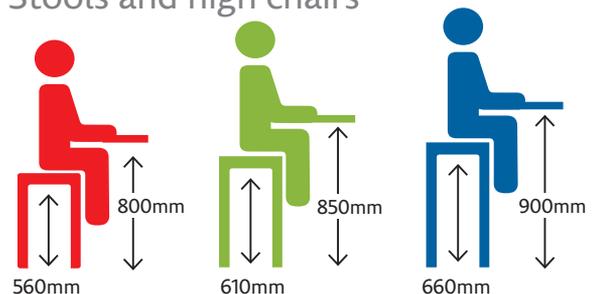

When choosing your furniture you must consider does the furniture meet the European and British standard BSEN1729, does the seating provide adequate posture support, does it fulfill the requirements to withstand the daily rigours of all environments and offer an ergonomic solution.

Chairs

AGE GROUP	SIZE MARKS					
	1	2	3	4	5	6
Nursery (3-4 yrs)	✓					
Pre-School (4-5 yrs)		✓				
Infant (6-7 yrs)			✓			
Junior (8-10 yrs)				✓		
Adult (11-13 yrs)					✓	
Adult (14-Adult)						✓

Workplace seating

Setting up your chair and workstation appropriately has a fundamental impact on your long term wellbeing at work, and will protect you from strains and injuries caused by poor seating positions.

Are you sitting comfortably?

Our guide here should help you to better understand these features and their relevance to the job you do.

Lumbar support

Adjusts to support the lower back and spine

Seat height

should be just below the knee cap when standing. Allow for your feet to be firmly on the floor when seated.

Levers

The levers (usually partially concealed under your office chair) operate key features such as seat height, seat tilt / angle, back movement. Generally speaking, more levers mean more functionality and therefore promote better posture outcomes.

Seat slide

Seat depth should allow the user to use the back support without the front of the seat pad pressing against the back of the lower legs.

The back rest

Should allow the spinal column to follow the natural 'S' shape. Height adjustability and lumbar supports will assist

Arm rests

Can provide support for the upper body and therefore reduce the stress on the users shoulders and back. However, they should not restrict free movement.

Seat tilt

Can be adjusted to improve your comfort.

Seat base

5 star base
Upgrades available - Chrome
Weight loaded castors
Soft castors
Glides

Features Guide

Gas lift adjustment

Gas lift adjustment

Raises and lowers the height of the seat to fit the user.

Independent seat tilt adjustment

Independent seat and back tilt (ISB)

Allows the seat to be independently tilted forwards and backwards. Often referred to as Asynchro mechanism.

Synchro seat & back tilt lockable options

Synchro seat & back tilt

Seat and back move in a synchronised motion. Lockable in multiple positions.

Standard tilt lock

Standard tilt lock

Seat and back move backwards in tandem, lockable in upright position.

Permanent contact back

Permanent contact back (PCB)

Self-weight tension control lockable in multiple positions.

Weight tension control

Weight tension control

Adjustable to the users weight to ensure smooth reclining action.

Back rake adjustment

Back rake adjustment

Independent seat back tilt control. Lockable in multiple positions.

Back height adjustment

Back height adjustment

Allows the seat back to be highered and lowered to fit the user.

Adjustable lumbar support

Adjustable lumbar support

Adjusts internally in the seat back to offer additional support to the lower back.

Seat depth adjustment

Seat depth adjustment

Seat slides forwards and backwards to match the users size. Lockable in multiple positions.

Lumbar support

Lumbar support

Offers additional support to the lower back.

Adjustable 3D arms

Adjustable 3D arms

Arms adjust in height & lockable in multi positions. Arms are also adjustable front & back and left & right positions.

Fixed arms

Fixed arms

Solid arms that are fixed in one position.

Height adjustable arms

Height adjustable arms

Arms adjust in height. Lockable in multiple positions.

Locking tilt lock

Locking tilt lock

Seat and back move backwards in tandem, lockable in any position.

Fully adjustable arms

Fully adjustable arms

Arms adjust in height and lockable in multi positions. Arms are also adjustable left and right positions.

Pivot arms

Pivot Arms (Fold Down)

Arms can be pivoted for clear access.

Locking tilt lock

Knee tilt adjustment

Seat and back move backwards in tandem, lockable in various positions.

Design

Our professional design team use their knowledge and experience in product specification, BIM and space planning to create spaces to inspire clients and help achieve their desired educational environment. Using the latest design technology, such as Fusion 360, Revit, Nscape and Matterport enables the team to keep up-to-date with the current trends within the industry.

All projects undertaken provide free initial consultation, site survey, budget guidance and a full FF&E specification (Furniture, Fixtures & Equipment).

Our design service will provide you with 2D space plans alongside 3D renders to fully demonstrate how your design project will look.

Manufactured furniture

Our range of fitted furniture has been designed predominantly to meet Design Building Bulletins for secondary schools' science and technology classrooms, teaching walls and storage walls.

All products are manufactured using our CNC machinery in our factory in the Swansea Valley and fitted by our highly skilled team, keeping skills and investment in Welsh economy in the process.

Vector teaching & storage walls

Vector teaching & storage wall

- Bespoke designs to fit your needs
- Flexible storage to fit your specifications and your space efficiently
- Interchangeable dry wipe boards and interactive whiteboards
- Integral cupboard and tray storage options
- Fixed and adjustable shelving
- Door handles as standard with locking or push-to-open doors upgrades available
- A massive range of colour options!

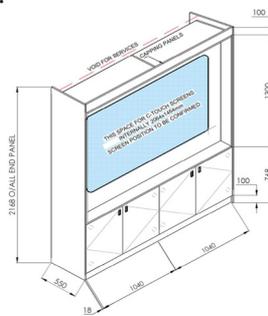

Vector teaching wall range

We offer a made to order service where teaching/storage walls are designed, manufactured and installed to meet your requirements. Below are some of our standard teaching wall configurations.

All you need to decide is;

- 1 How much storage you need - both cupboard or tray storage options.
- 2 Are drywipe panels required.
- 3 Do you require a space for a TV screen or smart drywipe teaching board.

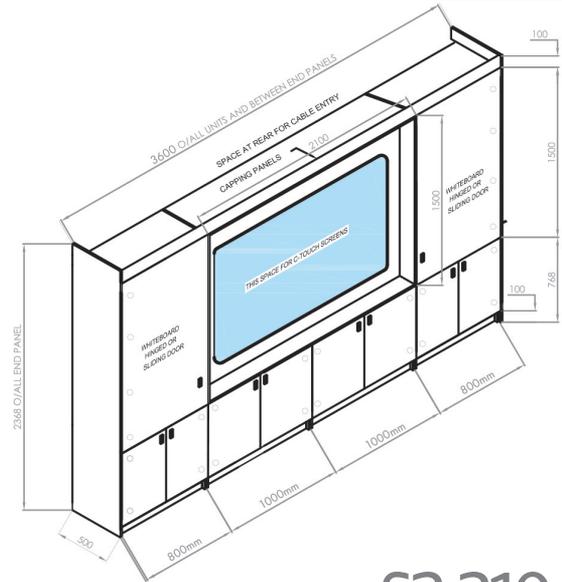

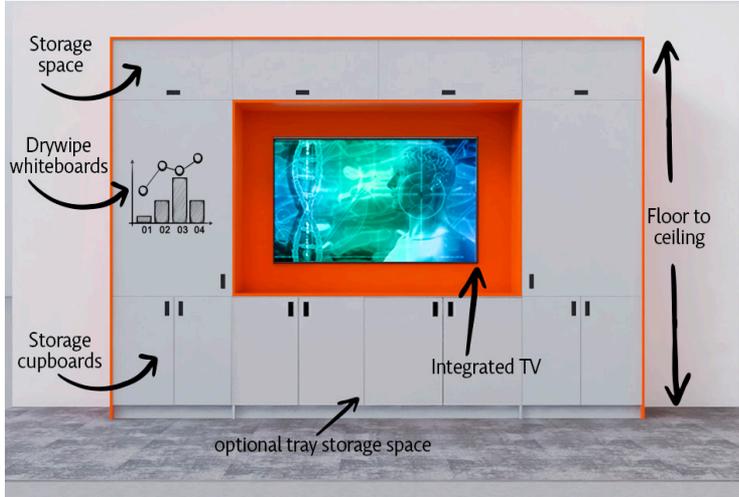

For a full consultation or guidance, please contact our team on 01639 812382, we will be able to find the best solutions for your project.

Examples of our most popular configurations

The following diagrams show examples of completed Vector wall projects. We can offer a 'standard' wall size, although most projects are manufactured to fit your space.

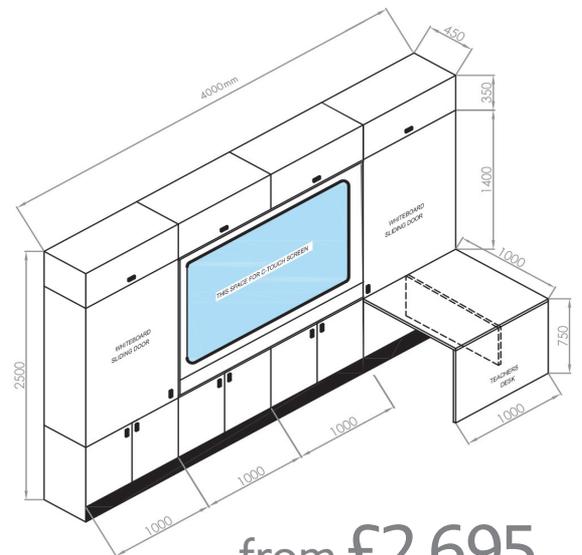

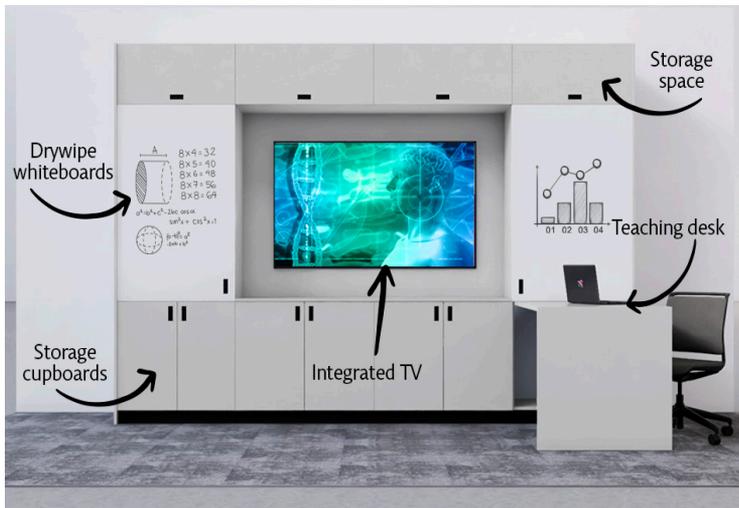

Example 1 - TR-AL

from £2,310

- 4 x Double cupboards
- 2 x Single large cupboards
- 2 x Whiteboard or Sliding doors
- 1 x Centre box panel
- 2 x End panels
- 2 x Capping panels

Example 2 - TR-D4

from £2,695

- 3 x Double cupboards
- 2 x Single large cupboard
- 2 x Whiteboard or Sliding doors
- 1 x Teachers desk unit
- 1 x Centre box unit
- 5 x Hinged top box units
- 2 x End panels
- 2 x Capping panels

*Subject to conditions

- Price shown applies to "Standard Carcass & Door Colour Options"
- TV Screen or projector **NOT** included in the price shown
- Subject to delivery & installation charges
- Site survey required before installation

Our Vector fitted furniture can be manufactured to your specific requirements.

Spur shelving

Complete shelving kits with white slotted-steel uprights, white shelf brackets and melamine-faced chipboard shelves.

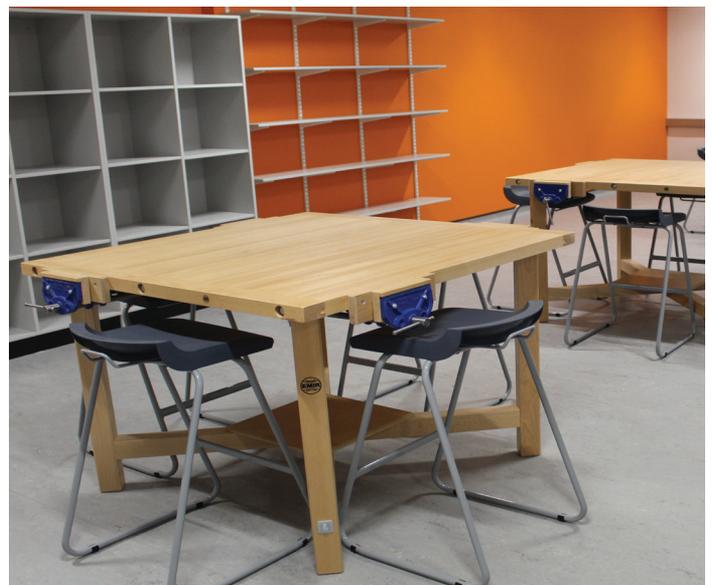

Wipe-clean shelves with brackets/uprights manufactured from premium-grade steel with an anti-bacterial coating, making the kits suitable for hospitals, canteens, schools and store rooms.

Individual loading capacity per bracket is 30kg. However common sense applies in that excess weight can pull the shelving from the wall.

Fabric band E

Yoredale (Camira) - Upholstery fabric

Low hazard fabric 

Composition: 95% Wool, 3% Polyester, 2% Polyamide
Flame Retardancy: EN 1021 - 1&2 (cigarette & match), BS 7176 Low Hazard
BS 5852 Ignition Source 5 when FR treated
BS 7176 Medium Hazard when FR treated

We want your old classroom chairs!

As part of our commitment to the environment and sustainability, we are working with a number of our polypropylene chair manufacturers to offer a recycling service for old plastic chairs when they have reached the end of their life.

Reduce, Re-use, Recycle.

The most effective way in reducing our environmental footprint is to reduce the amount we buy, re-use existing products where possible and finally, recycle products that are no longer usable.

Reduce

Our popular polypropylene chairs are specifically designed to be strong and durable so come with a great life expectancy, meaning schools need to buy less, less often.

Re-use

We can supply spare parts such as bungs and spray paint for scratched frames for anybody looking to refurbish their existing furniture.

Recycle

Finally, when a product can no longer be reused the last step is to recycle. Most classroom chairs are now being designed for maximum recyclability at end of life.

Steel, polypropylene and reinforced polypropylene are all **100% recyclable.**

We are offering a service to bring back your old chairs to be recycled. Manufacturers grind down the plastic back into pellets to create new product so they can begin their new journey!

Good for customers, good for us and better for the environment!

We can recycle them!

If you are based in the UK and have requirements for this service or would like to know more, get in touch and we will be able to offer advice or provide a quotation.

Frequently Asked Questions

- Is it only polypropylene (plastic) and metal leg chairs?
- We can recycle one piece and metal frame chairs.
- Are stools included? - We can recycle metal framed stools with polypropylene seats or one piece polypropylene stools.
- Are cantilever chairs ok? - Yes, we will be able to recycle cantilever frame chairs with polypropylene seats.
- Are fabric seat pads included? - Unfortunately, we will not be able to recycle any fabric seat pads.
