

Willmott Dixon

The brief for this project was to provide a complete office redesign, an empty open plan office space combining work areas with agile meeting and breakout spaces.

Willmott Dixon worked with our interior designer to create the plan and functionality of their new office, providing the full range of furniture to suit all areas within the working environment. The new office space provides staff with working desks and seating, a quiet area for meetings, a breakout area for collaborative thinking, a more formal conference room and a dining space. All furniture and interior design was provided by Ministry of Furniture.
