

Cegin Glo Bar & Bistro, Zip World Tower

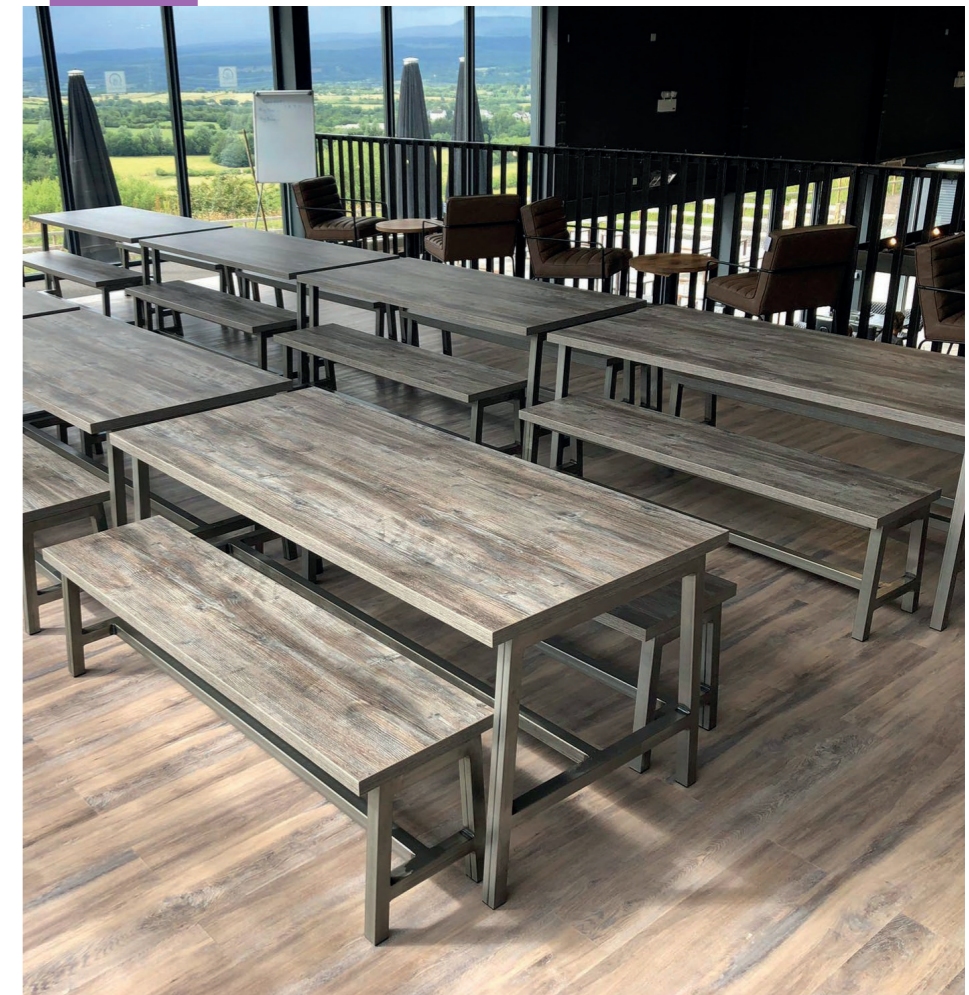

ome to Phoenix and the Tower Coaster, Zip World Tower is the 4th Zip World site to open, and is the 1st to be situated in South Wales.

Nestled in the Rhigos mountain range, and boasting stunning panoramic views, this adventure hub is situated at the old Tower Colliery coal mining site, and had created a new lease of life for this historic and widely-loved base.

Whether you're in need of a refuel after your Zip World adventure, or want to sit back, relax, enjoy some stunning views alongside great food and drink, Cegin Glo is the spot for you. This modern yet rustic Bar & Bistro is the perfect setting to compliment the site's rich history as a former coal mine, and references to its prolific past can be seen in every nook and cranny.

We were introduced to the Zip World team by our partners and friends at Castell Howell Foods when Zip World created a new mezzanine floor at the Cegin Glo Bar & Bistro at Zip World Tower in Rhondda Cynon Taf. We provided tables, benches and seating to compliment the rustic style of the interior.

It's a pleasure working in partnership with both Castell Howell and Zip World and we thank them for working with us.

“ Strong supplier relationships is key to our success at Castell Howell Foods, we are extremely proud of our new partnership with Ministry of Furniture as it allows us to offer the complete package to our customers. In business honesty, transparency and collaborating is how we work, our main ethos is going the extra mile for our customers in order to make sure their business is successful and delivering on our promises, we are proud to have a partner that shares the exact same vision. ”
